Alina 132cm DC Low Profile Ceiling Fan with Remote Control

SKU: TMPL6726

A ceiling fan uses significantly less energy than aircon does, offering a smart, energy-efficient way to stay comfortable year-round at home. The reverse settings allow you to choose cooling in summer and heating in winter, and in all seasons it gets the air moving to reduce the sense of humidity and stuffiness. The attractive, modern design is suitable for rooms up to 4m x 4m.
